LT/HT AVR

Distribution Transformer with OCTC :

Dynamic's all Distribution Transformers (100 KVA and above) are provided with off Circuit Tap Changer (until the customer refuses specifically for it). As the word speaks itself-off Circuit Tap Changer : the Tap Change may be carried out only when the transformer is de-energized. The tapping range may be +5% to -5% / +5% to -10% / +7.5% to -7.5% as per customer's requirement
